

VELA

COLLECTION

designed by Ramon Esteve

VELA is a modulate system with a prismatic geometry elementary that bases its singularity in the balance of its proportions. The elements can combine among themselves to be able to integrate in any space. Their flat volumes seem to float to some centimetres of the floor and when they are illuminated they are transformed into light architectures.

Es un sistema modular con una geometría elemental prismática que basa su singularidad en el equilibrio de sus proporciones. Los elementos se pueden combinar entre sí para poder convivir en cualquier espacio. Sus volúmenes rotundos parecen flotar a unos centímetros del suelo y cuando se iluminan se transforman en arquitecturas livianas.
