MADE IN SLIDE

In tanti campi d'eccellenza dell'industria italiana, la denominazione *Made in Italy* conferisce un valore positivo riconosciuto in tutto il mondo per la storia, la cultura, il gusto e la qualità, che sono indiscutibilmente punti di forza del nostro Paese.

SLIDE rafforza questa identità italiana con la denominazione *Made in Slide*, mantenendo all'interno dell'azienda tutte le lavorazioni che portano alla realizzazione dei prodotti: ingegnerizzazione, stampaggio, finitura, assemblaggio e laccatura, tutto viene rigorosamente realizzato negli stabilimenti di Buccinasco, alle porte di Milano.

La maggior parte dei prodotti SLIDE viene realizzata in polietilene riciclabile mediante la tecnologia dello stampaggio rotazionale. Oggi tuttavia la produzione si allarga per garantire un'offerta sempre più competitiva e rispondere alle sollecitazioni del mercato: nuovi materiali come il poliuretano e il polipropilene si affiancano ai nuovi processi produttivi dello stampaggio a iniezione e a schiuma poliuretana. I prodotti SLIDE trovano sempre il giusto collocamento, negli spazi residenziali, negli esterni, negli eventi o nel mondo del contract, rompendo gli schemi di ogni ambiente tradizionale.

In many fields of excellence in the Italian industry, the denomination *Made in Italy* gives a positive value recognised worldwide for history, culture, taste and quality, that are unquestionably our country's fortes. SLIDE strengthens the Italian identity with the denomination *Made in Slide*, by maintaining all processing that brings to the realisation of our products inside the company: engineering, moulding, finishing, assembling and lacquering. Everything is manufactured in the Buccinasco premises, at the gates of Milan. Most SLIDE products are realised in recyclable polyethylene by rotational moulding technology. However, the production broadens its offer, to guarantee a most competitive product range and to respond to the market demands: new materials like polyurethane and polypropylene are complementary to the new production processes of injection moulding and polyurethane foam moulding.

Either in residential or outdoor spaces, in events or in the contract world, SLIDE products always find their setting, breaking the schemes of any traditional space.

Dans de nombreux domaines d'excellence de l'industrie italienne, l'appellation *Made in Italy* confère une valeur positive, reconnue à travers le monde pour l'histoire, la culture, le goût et la qualité, qui sont sans aucun doute les points forts de notre pays.

Chez SLIDE, nous renforçons cette identité italienne avec la dénomination *Made in Slide*, en gardant au sein de l'entreprise tous les processus de production qui conduisent à la création de nos produits: concept créatif, moulage, finition, laquage, tout est rigoureusement réalisé dans nos usines de Buccinasco, aux portes de Milan.

La plupart des produits SLIDE sont réalisés en polyéthylène recyclable par rotomoulage. Aujourd'hui, cependant, la production s'élargit pour offrir une gamme de plus en plus compétitive et répondre aux demandes du marché: de nouveaux matériaux comme le polypropylène et le polyuréthane associés à de nouveaux systèmes de production comme le moulage par injection et la mousse de polyuréthane.

Un produit SLIDE trouve toujours sa juste position, dans le monde résidentiel, l'ameublement extérieur, dans les projets ou dans l'évènementiel, brisant les schémas traditionnels de n'importe quel habitat.

* Cushion in polyurethane, ideal for outdoor use.

A photograph of a modern outdoor furniture set in a lush garden. The set includes a white plastic armchair with black cushions and a white plastic coffee table. The chair is positioned in the center-right, and the table is in the bottom-left. The background features a large tree on the left, a large bush on the right, and a field of purple flowers in the middle ground. The scene is brightly lit, suggesting a sunny day.

SMART INFORMATIONS

SPECIFICATIONS - 10 fixed colors, shuffle effect.
COMPATIBILITY - All products with I3-E3 base.
ACCESSORIES - Power supply, IR remote control.
BATTERY RUNTIME - Up to 20 hours.
CHARGING TIME - 12-14 hours.
LIFE EXPECTANCY - 500 charging cycles.
ENVIRONMENT - IP44 for indoor and outdoor use.

SYMBOLS

Technical data available at the mentioned page.

Class 1: appliance fitted with basic insulation throughout and with accessible live parts connected to a supplementary safety circuit (ground).

Class 2: appliance fitted with double insulation or reinforced with insulation without ground connection.

Class 3: appliance protected against electrical shock, powered by a battery or a transformer.

Certifies the conformity of the product to the European Community instructions.

The upper part of the appliance may come into contact with normally inflammable surfaces. If this symbol is not shown, the upper part of the appliance must be installed not less than 25 mm from any normally inflammable material.

Lamps with this symbol are only suitable for indoor use.

Lamps with this symbol are suitable for indoor and outdoor use.

Lamps with this symbol are suitable for floating.

Product of the new collection.

Product compatible with Candy Light LED RGB - LP RGB100 (reference page 205).

PRODUCT FEATURES

POLYETHYLENE

Material: Linear low-density polyethylene - LLDPE

Production process: rotational moulding

Resistant to extreme temperatures: -60°C to +80°C

(Lighting version: if equipped with bulb -20°C to +60°C / with LED 0°C to +50°C)

UV resistant (except lighting colours)

High tensile strength

POLYURETHANE

Material: Polyurethane - PU

Production process: injection molding

High durability

Very good thermal resistance

POLYPROPYLENE

Material: Polypropylene - PP

Production process: injection molding

High tensile strength

Good heat resistance and abrasion

ALL MATERIALS ARE 100% RECYCLABLE

WARNING

Before any operation on the fixture, please disconnect the power supply.
Assembly and maintenance of the fixture must be performed carefully so components are not damaged.
Replacement bulbs must be the same type and wattage as specified in the technical sheet.
Use energy saving bulbs only.
In case of damage to the feeding cable, please contact a SLIDE dealer or qualified personnel for replacement.
Keep away from excessive heat sources.
Avoid any improper use. Do not stand on the products. When the product has to be moved, lift the product off the ground in order to avoid damages.

All the wattages reported in the catalogue are recommended.
All IP20 items are equipped with a transparent electrical cable.
All IP55 items are equipped with a black electrical cable.

MAINTENANCE & CLEANING

Check the material composition of the product on the technical sheet on www.slidedesign.it website.

To prevent dust and dirt from sticking to the plastic surfaces, periodically clean the products.
Avoid using ethanol or any liquids containing acetone, trichloroethylene or ammonia (solvents in general).

POLYETHYLENE: clean the product with a damp cloth and neutral liquid soap diluted in water.
It is recommended the use of SLIDE's "CleanUp" cleaner or a degreaser. In case of persistent stains, use a scrub eraser (melamine foam - Scotch-Brite Easy Eraser or similar) or a hot water pressure washer.
Spray the cleaning product on the surface, rub with a damp cloth and rinse abundantly with hot water.

POLYURETHANE: clean the products with a soft cloth and neutral liquid soap diluted in water, especially if the surface comes into contact with highly coloured substances (such as coffee, tea, oil, etc.).

POLYPROPYLENE: clean the products with a damp cloth and neutral liquid soap diluted in water and degreaser. Rinse with plenty of water.

Lacquered version: periodically clean with a polish cleaner, gently rubbing with soft cloth/cotton wool.

Cushions can be cleaned with a damp cloth, neutral liquid soap and water.

For metal parts use specific cleaners.

	SD CLE001	Detergent with high cleaning power recommended to clean SLIDE products (standard and lighting versions)
	CLEAN UP	

WARRANTY

SLIDE products are guaranteed against all manufacturing faults, granted that the items are appropriately used, for twenty-four (24) months from the date of purchase upon presentation of the invoice.

LEDs are guaranteed for twelve (12) months from the date of purchase.

Warranty doesn't include parts that are subject to wear and tear due to usage, batteries when provided, wiring and electrical parts that do not have manufacturing faults.

SLIDE declines any liability to damages caused to things or persons by an illegitimate use of the product.

SLIDE won't accept any returned goods without having checked the kind of defects first.
