

 KUNDALINI

KUNDALINI

CATALOGUE / 2011

*... besides being designed, light in turn designs
our perception of the world and of life itself ...*

Kundalini starts its activity back in 1996, when it developed the intuition of a new typology of lamps, extremely innovative and outrageous forms of light, symptomatic of a strong identity and a product culture expression of a universal language.

Since Kundalini has been considerably successful, to the point of being in Italy and abroad one of the most published company in its field. But the great visibility of Kundalini in the media has gone well beyond the strictly professional area of design specialists, since its products have frequently appeared in international movie productions, advertisements, television programmes and video-clips. Historic products such as the floor lamp E.T.A., the Shakti collection, Bokka and recently Kyudo have already become cult icons for the media worldwide.

Kundalini has been classified by the international contemporary design community as a pioneering company not only for the development of the new themes that it has introduced and which are now very widespread, but also for the innovative spirit of its style and the advanced research work in new production technologies and the new materials.

It's now a company with extensive experience, which is still oriented towards the identification of cutting-edge research solutions always original and highly creative, that each time draws inspiration from different worlds. From nature, industrial landscapes or the visual arts. In what is always a perfectly calibrated synthesis of function and emotion.

Kundalini counts on the cooperation of emerging talents, internationally renowned designers and architects who are sharing and underlining the company mission.

VISION

*... la luce non solo è disegnata, ma a sua volta
disegna la nostra percezione del mondo e della vita ...*

Kundalini inizia la propria attività nel 1996, con l'intuizione di una nuova tipologia di lampade, forme di luce estremamente innovative e altrettanto coraggiose, sintomatiche di un'identità forte e una cultura del prodotto espressione di un linguaggio universale.

Il riconoscimento che l'azienda ha avuto sin dagli esordi è senza precedenti, ponendola in Italia e a livello internazionale, fra le aziende più pubblicate del proprio settore. Ma la forte esposizione mediatica di Kundalini è andata ben oltre il raggio di ricezione dell'area degli specialisti di Design, contando numerose apparizioni dei propri prodotti in produzioni cinematografiche, pubblicitarie, televisive e di videoclips internazionali. Prodotti storici come la lampada da terra E.T.A., la collezione Shakti, Bokka e più recentemente Kyudo sono già icone cult dei media di tutto il mondo. Kundalini è stata accreditata nell'ambito internazionale del design contemporaneo come un'azienda pionieristica non solo nello sviluppo delle tematiche che ha introdotto, ma soprattutto per lo spirito innovativo che contraddistingue il suo stile e la ricerca avanzata nell'ambito delle nuove tecnologie produttive e dei nuovi materiali.

E' oggi un'azienda con una solida esperienza, instancabilmente orientata all'individuazione di traiettorie di ricerca d'avanguardia sempre inedite e ad alto tasso creativo, ispirate di volta in volta da mondi diversi. La natura, gli scenari industriali, le arti visive. Il tutto in una sintesi sempre perfettamente calibrata tra funzione ed emozione.

Kundalini si avvale della collaborazione di talenti emergenti, designer e architetti di fama internazionale che ne condividono e sottolineano la missione.

... Licht wird nicht nur entworfen,

Licht entwirft wiederum die Welt und das Leben so wie wir beides wahrnehmen...

Kundalini beginnt die Tätigkeit 1996 mit der Idee einer neuen Typologie von Lampen, extrem innovativ und mit aufregenden Formen der Lichtkreationen, hoher Identität und Produktkultur und mit dem Ausdruck einer universellen Formensprache.

Dank der großen Anerkennung die das Unternehmen seit seinem Beginn erhalten hat, gehört Kundalini in Italien sowie auf internationaler Ebene zu den meist gefragten dieser Branche. Jedoch hat die starke Medienpräsenz von Kundalini das Ziel der Design-Spezialisten bei weitem überholt, und Kundalini-Objekte sind in zahlreichen Filmproduktionen, Werbespots, TV-Produktionen und internationalen Videoclips erschienen. Historische Produkte wie die Bodenleuchte E.T.A., die Modelle der Reihe Shakti, Bokka und die jüngsten Kyudo zählen schon jetzt zu den Kult-Ikonen der Medien weltweit. Kundalini ist im Bereich zeitgenössisches Design auf internationaler Ebene als Pionierunternehmen anerkannt worden, nicht nur die Entwicklung der von ihm eingeführten Themen betreffend, sondern vor allem seines innovativen Geistes wegen, der seinen unnachahmlichen Stil hervorhebt, der Suche nach neuen Produktionstechnologien, neuen Materialien.

Kundalini ist heute ein Unternehmen mit solider Erfahrung, unermüdlich auf der Suche nach neuen avantgardistischen Forschungstrends, immer originell und creativ arbeitend, inspiriert durch die Natur, die industrialisierten Landschaften oder die Kunst. Und das zeigt sich in unserern Produkten, eine wunderbare Synthese aus Funktion und Emotion.

Kundalini kann sich der Zusammenarbeit mit namhaften internationalen Designern und Architekten rühmen, die dieses Ziel unterstützen und in den Vordergrund heben.

... la lumière non seulement est dessinée, mais

dessine à son tour notre perception du monde et de la vie...

Kundalini commence son activité en 1996, avec l'intuition d'une nouvelle typologie de lampes des formes extrêmement innovantes et scandaleuse de la lumière, symptomatique d'une forte identité et une culture du produit qui devient l'expression d'un langage universel.

La reconnaissance sans égal que Kundalini a eue dès ses débuts l'a placé parmi les entreprises les plus publiées dans son secteur, aussi bien en Italie qu'à l'international. Mais la grande exposition médiatique de Kundalini est allée bien au-delà de l'univers des spécialistes du Design, avec de nombreuses apparitions de ses produits dans des productions cinématographiques, publicitaires, télévisées et de clips vidéo internationaux.

Des produits historiques comme le lampadaire E.T.A., la collection Shakti, Bokka et plus récemment Kyudo sont déjà des icônes cultes des médias du monde entier.

Kundalini a été accréditée dans le milieu international du Design contemporain comme une entreprise pionnière non seulement dans le développement des thèmes introduits, mais surtout pour l'esprit innovant caractérisant son style et la recherche avancée dans les nouvelles technologies de production, des nouveaux matériaux.

Aujourd'hui Kundalini est une entreprise qui peut compter sur une expérience solide, sans cesse orientée à l'identification de trajectoires d'étude d'avant-garde toujours original et très créatif, qui puise à chaque fois son inspiration dans des mondes différents. De nature, les paysages industriels ou les arts visuels.

Sont toujours une synthèse parfaitement calibré de la fonction et l'émotion.

Kundalini collabore avec des talents, designers et architectes de renommée internationale qui en partagent et mettent en exergue la mission.

... la luz no está sólo diseñada,

sino que a su vez diseña nuestra percepción del mundo y de la vida...

Kundalini inicia su actividad en 1996, con la intuición de una nueva tipología de lámparas, formas de luz extremadamente innovadoras, sintomáticas de una fuerte identidad y una cultura del producto que se convierte en la expresión de un idioma universal.

El reconocimiento que Kundalini ha tenido desde sus inicios es sin precedentes y la coloca en Italia y a nivel internacional entre las empresas más publicadas de su sector. Pero la gran exposición mediática de Kundalini ha ido mucho más allá del radio de recepción del área de los especialistas de Diseño, contando con numerosas apariciones de sus propios productos en producciones cinematográficas, publicitarias, televisivas y de videoclips internacionales.

Productos históricos como la lámpara de pie E.T.A., la colección Shakti, Bokka y más recientemente Kyudo ya son íconos cult de los medios de todo el mundo. Kundalini ha sido acreditada en el ámbito internacional del Diseño contemporáneo como una empresa pionera, no sólo en el desarrollo de los temas que ha introducido, sino sobre todo por el espíritu innovador que caracteriza su estilo y la investigación avanzada en el ámbito de las nuevas tecnologías productivas, de los nuevos materiales.

Kundalini es hoy una empresa con una sólida experiencia, incesantemente orientada a la identificación de líneas de investigación de vanguardia siempre original y altamente creativa, inspirada cada vez en mundos diversos. La naturaleza, los escenarios industriales, o las artes visuales. El todo en una síntesis siempre perfectamente calibrada entre la función y la emoción.

Cuenta con la valiosa colaboración de talentos, diseñadores y arquitectos de fama internacional que comparten y destacan la misión de la empresa.

Suspension lamp with out of mould mouth-blown diffuser, rotationally-formed and internally sand-blasted. This artistic craftsmanship makes any and each product unique. This irregularly shaped glass is assembled on chrome-plated metal fixtures through an harmonic steel crown spring. Silicon supply cable with intertwined poles.

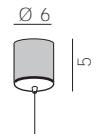

Lampada a sospensione con diffusore in vetro soffiato a spessore fuori stampo, lavorato in rotazione e internamente sabbiato. Questa lavorazione artistica rende unico ogni singolo prodotto. Il vetro dalla forma irregolare è fissato a particolari metallici cromati tramite una molla di acciaio armonico a corona. Alimentazione con cavo in silicone a poli intrecciati.

Hängeleuchte aus mundgeblasenem Glasdiffuser, in Rotation handverarbeitet, innen satiniert. Diese Fertigung macht jedes Glas einzigartig. Verchromte Metallstruktur mit innenliegender Stahlfeder. Silikonkabel gewebt.

Lampe à suspension avec un diffuseur en verre soufflé à épaisseur hors de moule, ouvré en rotation et internement sablé. Cet ouvrage artistique rend unique chaque produit. Le verre, dont la forme est irrégulière, est fixé à des détails en métal chromé à travers un ressort à coronne en acier harmonique. Alimentation avec câble en silicone à pôles tressés.

Lámpara colgante con difusor de vidrio soplado hasta espesor fuera del molde, trabajado en rotación y areñado en su interior. Esta elaboración artística hace que cada pieza sea única. El vidrio de forma irregular está fijado a soportes de metal cromado mediante un resorte de corona de acero armónico. Alimentación con cable de silicona de polos entrelazados.

PLUTO wall /

PAOLA NAVONE / 2006

Wall and ceiling lamp with mouth-blown diffuser, rotationally-formed and internally sand-blasted. This artistic craftwork makes unique any and each product. This irregularly shaped glass is assembled on chrome-plated metal fixtures through an harmonic steel crown spring. The diffuser is orientable at 360°.

Lampada da parete e da soffitto con diffusore in vetro soffiato, lavorato in rotazione e internamente sabbiato. Questa lavorazione artistica rende unico ogni singolo prodotto. Il vetro dalla forma irregolare è fissato a sostegni metallici cromati tramite una molla di acciaio armonico a corona. Il diffusore è posizionabile a piacimento a 360°.

Wand- und Deckenleuchte aus mundgeblasenem Glasdiffuser, in Rotation handverarbeitet, innen satiniert. Diese Fertigung macht jedes Glas einzigartig. Verchromte Metallstruktur mit innenliegender Stahlfeder.

Applique et plafonnier avec un diffuseur en verre soufflé, ouvré en rotation et internement sablé. Cet ouvrage artistique rend unique chaque produit. Le verre, dont la forme est irrégulière, est fixé à des détails en métal chromé à travers un ressort à coronne en acier harmonique. Le diffuseur peut être tourné à plaisir à 360°.

Lámpara de pared y de techo con difusor de vidrio soplado, trabajado en rotación y arenado en su interior. Esta elaboración artística hace que cada pieza sea única. El vidrio de forma irregular está fijado a soportes de metal cromado mediante un resorte de corona de acero armónico. El difusor se puede orientar a gusto a 360°.

HARA
GIORGIO GURIOLI / 2002

HARA

GIORGIO GURIOLI / 2002

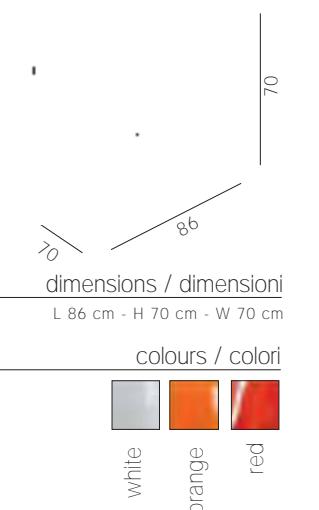

Hara is a bio-energetic seat handmade in lacquered fibreglass. Ideal for outdoors thanks to a treatment against ultra-violet rays and to the strong resistance of the material to temperature changes.

Hara è una seduta bioenergetica in vetroresina laccata interamente realizzata a mano. Ideale anche per esterni grazie alla protezione dai raggi UV e alla grande resistenza del materiale all'escursione termica.

Hara ist ein bioenergetischer Sessel in lackiertem Fiberglas, ganzheitlich handgefertigt. Hara ist im Außenbereich auch ideell, dank dem UV Schutz und der großen Resistenz des Materials auf thermischer Exkursion.

Hara est un siège bioénergétique en fibre de verre laquée entièrement réalisée à la main. Il est aussi idéal pour l'extérieur grâce à la protection aux rayons UV et à la grande résistance du matériel à l'amplitude thermique.

Hara es un asiento bioenergético de resina de vidrio, lacado, realizado completamente a mano. Ideal también para exteriores gracias a la protección contra los rayos UV y a la gran resistencia del material a la excusión térmica.

/ marking /

This mark guarantees that the product has passed all the tests established for electrical safety standards by the European Community. EN 60598-1 regulations corresponding to Italian norms for electric security CEI 34-24.

La marcatura indica che il prodotto ha superato positivamente tutte le prove previste dalle normative per la sicurezza elettrica, richieste dalla Comunità Europea. Normative EN 60598-1 corrispondenti alle norme Italiane per la sicurezza elettrica CEI 34-24.

Specific regulation for USA and Canada market.
Normativa specifica per il mercato Stati Uniti Canada

IP10

Device protected against penetration of solid bodies over 50 mm of diameter.
Apparecchio a prova di penetrazione di corpi solidi di dimensioni superiori a 50 mm di diametro.

IP20

Device protected against penetration of solid bodies over 12 mm of diameter.
Apparecchio a prova di penetrazione di corpi solidi di dimensioni superiori a 12 mm di diametro.

IP44

Device protected against penetration of solid bodies of 1 mm of diameter and protected against splashing water.
Apparecchio a prova di penetrazione di corpi solidi di 1 mm di diametro e protetto contro gli spruzzi.

IP65

Device dust-tight and protected against splashing water.
Apparecchio totalmente protetto contro la polvere e protetto contro gli spruzzi d'acqua.

Class 1. Single isolation: protective grounding is required.
Classe 1. Isolamento semplice: è richiesta la messa a terra di protezione.

Class 2. Double isolation: protective grounding is not required.
Classe 2. Doppio isolamento: non necessita di messa a terra di protezione.
